

News From Your TOWN HALL

Frank Dooley and Junius Harris political protégés of a group of young business men of the City joined Harold Rabin as successful candidates for City Commission in Tuesday's election.

Only 653 of the 1,081 registered voters showed up and undoubtedly the afternoon rain kept some of the 428 away. A lack of hotly contested races is a contributing cause of the indifference.

The interest manifested by the younger group who sought candidates of ability to consider the welfare of the City instead of the constricted issues previously evident in City election.

Who will be Chief and who will be granted the gambling privileges—produced a discussion of vital issues to the City's welfare and growth.

All candidates at the Monday night rally, which is the first of its kind held for the candidates, claimed no political promises other than "to do as good a job as they may," and this is generally the impression of the public.

Those who spearheaded the young group promoted the Monday night meeting and the candidates were invited to discuss their plans, and were a bit disappointed at the turnout of about 60. Probably this is the beginning of similar meetings in the future.

With the probability of a City of 25,000 within the next decade, planning for the City will demand keen minds and energetic consideration. It's wholesome when youth takes a vigorous interest in government—we hope this is an omen.

It is our duty to support the elected officials; we can't intelligently do this unless we are acquainted with what's happening. Make it your business to know more about your City's government. Offer suggestions and constructive suggestions, criticize, let it be friendly and constructive.

Drink And A Cane Knife Gets Aged Negro Into Trouble

Howard Wilson, an aged farm worker residing in negro town, Saturday night, got well pelted with four liquor, and as he wandered home he was flashed into the face of Joe Gibson, who was seated on doorman's porch.

Gibson objected, Wilson apologized, and went onto his home, but soon returned armed with a cane knife and threatened to harm Gibson.

As Wilson lunged with the blade, Gibson threw a rock, which reached Wilson's forehead, and Wilson fell to the ground.

In police court, Wilson admitted his intoxication, and in memory of the later episode he is to remember to pay \$100 for the street and work 30 days for the town.

South Bay To Have Maintenance Man

The Town of South Bay will take applications at the next regular meeting to be held on September 23, for a maintenance man to superintend the water department, and also serve as building and sanitary inspector for the town.

Veterans News From Your VA

Service connected disabled veterans with more than 60 per cent disability who have a wife, children or dependent parents are entitled to increased compensation, effective September 1, 1948. The increase will be reflected on the check for the month of September, which is usually received around the 1st of October. Here's something that's very important. The VA is supposed to contact all veterans with more than 60 per cent disability to determine if they are entitled to the increased compensation. On the other hand, however, if a veteran fails to visit your local service officer, or the VA, and get your disability rating increased, it will be necessary to submit a marriage certificate, plus birth certificates for any children. In the case of dependent parents, it will be wise to have them prepare affidavits of dependency to submit to the VA. (Continued on Page 2)

Resilience Of Glades Economy Produces More Permanent Stability With Many Set-Backs, Disasters Or Over Production

Post-war market conditions—much OR too little in the Glades; over-production by farmers, or under-financed family budgets of consumers; or maybe some more Harvards high fault in explanation—any how something has caused a rearrangement of the Glades agricultural economy.

This cause—whatever it is—is, and the effects, they ARE. The EFFECTS are a substantial and growing permanency based on diversification which includes, vegetables, beef with allied crops and pastures, and the rapidly expanding Ramie.

The Federal Overlooked Land-Grant Program in its remarkable advanced stage is a major inducement to capital, both local and out-of-community, to make the changes and improvements necessary to convert and build new new industries. This also is a big factor in securing long term loans on an equitable appraisal.

The Governor Caldwell and Senator Holland put it on Labor Day at Boynton, legislative and departmental old-timers know of no major project such as the \$208,000,000 program, which has enjoyed its almost unbelievable progress. Machines are now at work on a \$1,300,000 project on the St. Lucie that will more than double the runoff capacity of the important Lake-to-Tide-water canal, in approximately one year after original planning.

The joint contributions of Dade, Broward, Palm Beach and the Everglades District to the Federal Overlooked Land-Grant Program in its remarkable advanced stage is a major inducement to capital, both local and out-of-community, to make the changes and improvements necessary to convert and build new new industries. This also is a big factor in securing long term loans on an equitable appraisal.

Bob Creech Helps Public Promotion Of Ft. Myers Beach

Sets Exchange And Rotary Clubs To Finance Fishing Pier And Beach Purchase

R. Y. Creech, Sr., is sort of a migrant in the matter of homes, for he spends six months of the year in Belle Glade, and the other portion of the year at his cottage at Ft. Myers Beach, and visits that both have his advantages. After he has spent a crop season here, he finds it might be to enjoy a bit of leisure over at his cottage home, where he can take the life of ease, with a lot of gulf fishing included.

Some six years ago, the territory which is now Ft. Myers Beach resort, was but a patch of palmettos and swamps lands, with various types of animals, and not a very attractive place. All that has been a specially changed through cooperative work of people who became interested in making it a popular year round watering place.

First work was to level off the shore lines, preparing lands for home and business uses, then a certain portion of the mangrove and palms had to be removed, and other improvements in the water and land. A few years ago, if one wandered down the highway, they would see for their lives from the hordes of mosquitoes and sand flies, but now under modern methods of treating with DDT oil and other chemicals, the pest has been eliminated.

In furtherance of its activities to meet the record-breaking post-war telephone needs of the state and help lead the way to the greatest possible growth and development of Florida, Southern Bell after the war rapidly stepped up its construction of new facilities. These activities have reached the point where

Townsend Reports On Soil-Chemical Tests Released

Dow Chemical Company Make Public Results In Glades Use Of Dowfume-40

"Down to Earth" is a new review agricultural chemical publication, put out by the Dow Chemical Corporation, of which Richard Townsend, of Belle Glade, is one of its agents as a pathologist, in various types of seed and chemical tests.

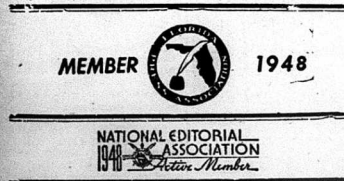

In a recent issue of this publication, Dr. Townsend had a two page article entitled "Root Knot Control for Muck Land Celeriac." This treatise is based on experiments and results, carried on mostly on the Wedgworth estate lands, in the use of various chemicals for the treatment of celeriacs.

He first describes the construction of a spray machine which is used to spray the celeriacs, and its use as an applic

COURAGEOUS OPPOSITION
Twelve labor leaders could bring this nation to a standstill "in just half an hour," said Cecil B. DeMille, motion picture producer and director, in testifying before the House Labor Committee, which is reviewing laws. He urged laws guaranteeing "the right to work." He is the central figure in a new old dispute with the union over his refusal to pay a one dollar political assessment for which he was suspended by the American Federation of Radio Artists. Since then, Mr. DeMille has not been allowed to work on the air for any employer.

In testifying before the Committee, the witness said: "We have seen the danger to the right to work from employers, but the unions have now broken that, and... the pendulum has swung the other way... the unions have gone too far."

Mr. DeMille urged the Committee to consider a law declaring a "fundamental right to work," and stated a Constitutional amendment might be necessary to guarantee it. He blamed both labor and management for "battering" at man's right to work when and where he pleased. "A Federal right-to-work law backed up by stiff criminal penalties and substantial civil damages would go far to clarify the just limits of the right to strike and discourage use of goon tactics on American citizens who want to exercise their right to work."

Taylor Brothers Enter Local Insurance Field

The old home town of Belle Glade looked good to "Billy" and "Andy" Taylor, sons of the late Hon. George A. Taylor, Sr., and they have decided to remain here and enter into its business affairs.

The Taylor boys have been named as district agents for the Georgia Life Insurance Company, and have entered upon their duties. Both of the boys are World War II veterans.

Playing On Rollins Team

The Rollins College football team will have three former Pahokee boys playing on its squad this season named, Calvin Peacock, Henry Baxter and Stokes Smith. Peacock who is a team veteran will again play the spinner-half back position.

New Equipment Secured

The Navy Department has been very kind to the University of Miami, in that it has given the former 106 foot yacht "Phyllis," which had been used for rescue work. This yacht will be used by the Marine laboratory of the University for its deep sea and fresh water exploration work, and some day may be seen on Lake Okechobee.

The State Highway Department has secured and is now using a modern road marking machine. This equipment can mark 40 to 60 miles of center highway a day, along with the necessary junction and side marking. All materials for use in the marking is carried along with the marker in a trailer. It is mighty clever and efficient piece of highway equipment.

From where I sit... by Joe Marsh

"Farming" Versus "Ranching"

Talked to some editors who run my column in the "opere" in states where there's much sheep and sheep raising. They think there's much difference between farming and ranching.

And they said: "Joe, there's a difference between the two. A farmer takes care of his land and his farm. We make our living from the land like you folks do; we have the same 4-11 clock and the same problems of price and marketing."

"When it comes to recreation, we have the same liking to get to-

gether now and then for a barbecue and a friendly glass of beer."

And from where I sit, that about sums it up. Ranchers may have different crops, but all over America folks who work the land share the same common traits of hard work, good nature, and good fellowship, whether they're growing cattle, sheep, beef, or hairy for good American beef and ale.

Joe Marsh

ber of fat beef. Present owner's plans to plant more than double the pasture acreage in the near future. Although the VA's sizeable chunk of complete operation, with more or less indefinite plans for another 500,000 dollars, simple form. Rame is a fair-haired child of the prodigy type in Glades agriculture, and there's ample evidence of performance to justify an enthusiasm for a more healthy and substantial future.

U. S. Sugar and Newport are installing machinery in the old starch plant to degum fiber from more than 1,300 acres of Ramie, after it has been decorticated at Canal Point. Swiss textile manufacturers doubled last year's 400,000 pound order this year from Newport of undegummed fiber.

A mobile field decorticator was demonstrated at Canal Point and has evoked comments on the quantity and quality of decortication. Improvements are already under way on this machine, which is still in the Glades and will be used here.

Two or three chemical processes are being discussed and financed for Glades operation, but no chemical process has yet been demonstrated this field operation, of any magnitude.

Enough has been done with Ramie in the Glades to definitely establish it as a crop for the future. Improvements are necessary and inevitable in production. Ramie offers an annual income to the farmer of from \$30 to \$80 net per acre. To the processor, its possibilities are as enticing as a Hollywood star's salary.

The transformation of Glades from a rapidly changing scene, including about, in substantial volume and with encouraging confidence.

VETERANS' NEWS

Continued From Page One
The records of VA are correct as to date, and everything should be automatic. To be sure, visit your service officer, or the VA office nearest your home. They'll be glad to help you.

Survivor's Benefits
Widows, children and dependent parents of service men killed in the service, or who died of disease or injury, are also entitled to increased compensation, which will be automatic from the VA. The new law is outlined briefly:

	OLD	NEW
Widow, no child	\$60.00	\$75.00
Widow, one child	78.00	100.00
Widow, two children	94.00	115.00
Mother or father	53.00	60.00
Mother and father	30.00 (ea)	35.00

Remember, the law is automatic and if your claim has once been established with VA, then there should be no hitch to the increased payment. Any special questions should be sent to VA, 712 Comeau Building, West Palm Beach, Fla., or to your own local service officer.

Education and Training
The VA is asking that veterans desiring certificates of eligibility and entitlement under the G. I. Bill, to make application at least 30 days in advance of actual entry into training or school, as the case may be. Revised regulations require that the veteran submit a photostatic copy of discharge or separation papers with the application. If you have had previous education and/or training under the G. I. Bill, it will not be necessary for you to submit a copy of your discharge or separation papers.

Contact your service officer of VA for more information in case of doubt. Veterans who have in lieu of discharge, old certificates of eligibility, issued prior to August 31, 1948, are reminded that they are valid until January 1, 1949.

Veterans News Review
Questions from the veterans' newsmen from the Veterans' Reviewer... up to date information about current problems.

First, a letter from a veteran in Belle Glade. He writes "I was wounded in the shoulder in Germany, during 1945, and now I am having quite a bit of trouble, with severe pain at times. In brief, he wants to know what to do. 'First of all, he should file a claim immediately with the VA. Medical records of his condition will be secured from the armed services. Once the condition is established with VA as service-connected, he will be entitled to out-patient care, and possibly compensation, if the disability is bad enough. The claim may be filed locally, and the VA will take prompt action to secure your service record.'"

Here's another question of interest submitted by a veteran living in Clewiston. He wants to know about state institutions for veterans having disabilities, who are interested in self-employment requiring an occupa-

Belle Glade Herald

tion license. According to a ruling of the Attorney General's office, veterans having disabilities are recognized by VA as the personal physician, or a service organization, are entitled to occupational licenses, free, not to exceed \$50 dollars a simple form executed by the veteran and his personal physician, or a statement from the VA will be sufficient. Check with your local service officer or VA, for more information.

Service For Vet Reviewer
Listed below is the schedule of the Vets-News Reviewer. If you have a specific problem or question, refer to this schedule. Pahokee, City Hall from 9 a. m. to 12 noon Wednesdays. Belle Glade, Sanders Building from 1 p. m. to 4 p. m. Wednesdays.

La Belle, Court House from 9 a. m. to 3 p. m. Thursdays. Service for veterans with fellowships hour during summer months.

BOB CREECH HELPS
(Continued From Page 1)
sects, and is free from annoyance from these sources. The improvement Association secured a truck and a Rochester turbine sprayer, and each Monday Bob makes Ramie progress on some two miles, by a half a mile inward, and this service costs the larger property owner a year, a good investment from health and comfort standpoints.

Bob says if a similar system were used in Belle Glade, the city would be better off than it is under the present methods of dealing with the pests.

Three years ago the fishing pier at the beach was storm ridden and partially demolished, and was located in a very good spot. The past two years the Beach Improvement Association, and now assisted by the Exchange Club of Ft. Myers, has raised around \$8,000 to erect a larger, better, and better located pier, which will be at the north end of the beach where the county road ends. This project will be completed by the time the coming winter season opens.

Reparian land along the gulf was being readily picked up, and just north of the new pier, there were some 400 feet, privately owned by Tom Phillips, which was available for public use as an entrance to the beach for a casino and parking spot.

Bob, deemed this ought to be purchased, and dedicated to the public, so he got busy. He appeared before the Ft. Myers Board, Clark, presented the proposition. And to the amusement and pleasure alike of citizens, the club is majoring the project is its priority activity for the present year, with the job of raising some \$30,000.

As a result of Creech's persuasive making of this project into action, the Beach citizens threaten to make him the man of the year, change the name to Creech Beach, and erect a monument to his memory for park gazers to admire. Bob says if this is done, the monument might not be so desired, but it would be a memorial of one man's vocal ability to get something done in behalf of the public.

Creech has his own boat and trailer, and at any hour of the day, in the rainy or clear day, can put-pull out to his favorite fishing grounds along the deniers of the gulf waters, which are abundant in all types, and no one needs to care for the but-

TROPHY CUP GOES

Continued from page 1

It was after the cup had come into the possession of Billy Crider, sponsor of the winning team, and it had been placed on the players' bench, that Eddie Schoepfle, manager of the Glades team, made up his mind that by fair or foul means he was going to get it. He made a temporary possession of that cup. He sneaked the cup and headed for a flight over the east beach, but he was caught. When wised up, Crider, decided not to have it that way, and with a Patton spirit, despite his leanness, he managed to overtake and secure possession of the prized cup. Only few of the fans were wise to his plan. When wised up, Crider, decided not to have it that way, and with a Patton spirit, despite his leanness, he managed to overtake and secure possession of the prized cup. Only few of the fans were wise to his plan.

At the present time six former commercial fishing crews have gone to work for the State Game and Fresh Water Fish Commission, under an agreement, and with a state inspector and biologist, heading the crew, an interesting data is being uncovered, not all of its unfavorable to the contentions of the commercial fishermen.

Business men of Moore Haven and Lakeport have not been backward in coming forward with testimony that since the lake fishing has been on the past two years, that their business has decreased like dew before the hot sun.

The fishing crews are finding hordes of bass and bream in the lake, and with the catfish and predatory fish are multiplying, they will soon be able to destroy the present supply of game fish.

Many mullet coming into the lake through the canals are being found, and this is fish farming, and the result of the mullet destroying the spawning beds.

Hope that some adjustment on this controversial fishing question may be arrived at soon is the desire of the people residing around the lake, but it seems a foregone conclusion that the Commission will not permit scale fish to be taken in nets.

agers of the C & B Cash Grocery and Market, at the close of business this week, will assume the sole management of the store. He plans to make extensive remodeling and arrangements in the store, and will enclose his bakery department off from the other store departments.

Frank Close, his brother, who has been associated in the store management, is retiring to open his own fish and poultry market.

Sinclair-Kirchman Co.
Putting In New Bulk Station

The Sinclair-Kirchman Corporation, of which "Slick" Kirchman, is local manager of its distributing station, has taken out a building permit for a new bulk and distributing station on the terminal sub-division, to include new buildings, a battery of storage tanks and other improvements, estimated to cost \$15,000.

Work has already started on the project and some of the equipment is on the ground ready for installation. The buildings will be of the most modern construction for the storage of oils, grades and gasoline and distillates.

Kirchman has a wide territory in the Glades which he has served for around a score of years with the Sinclair Refinery Products.

The Florida National Bank at Belle Glade has also taken a \$4,000 permit for the installation of a Westinghouse air conditioning and ventilation system in its banking headquarters, a new workmen from the Miami contracting company are on hand to start the work.

Political Rally Failed To Create Much Interest

A last minute spurt of interest in the City Commissioner race developed over the week end, when the candidates resorted to radio talks, mail letters, hand bills, and finally a "rally" at the Legion Hall on Monday night, which was presided over by Tom Watson, Jr.

Either from lack of interest or lack of advertising of the candidates, only a mere handful of citizens turned out to the so-called rally, which proved a rather drab in comparison to many former live meetings of its kind of the past.

Each of the candidates in the race were given opportunity to speak and they accepted, using about the same material as had been previously been promulgated by them in former methods of presentation of their candidacy.

What was obtained out of the campaigning and rally was partially reflected in the election results of the city, which appears in the Herald.

Health Board Gets Busy On Water Deal At Moore Haven

The taxing boards of Glades county have fixed their 1948-49 millage rates as follows: County, 14%; schools, 15.50 mill; with no assessment for interest and sinking fund costs. The latter is due to the fact that both boards have paid off bond and interest obligations or have money in hand to do so, including the old court house debt.

From the property assessment incomes of \$40,000 and \$42,000 will be collected for operation funds on a hundred per cent collection.

Miss Margaret Morgan is the new public health nurse for Glades and Hendry and Highlands counties, assuming duties September 15. She was a former head nurse connected with the Good Samaritan Hospital at West Palm Beach, but recently residing in Summerville, Ga.

R. H. Stone has been named physical education director at Moore Haven and they will not

have no football team this year, but Stone will direct basketball and baseball and other educational recreational activities.

Unless recommended changes are made in the water plant at Moore Haven, the State Board of Health threatened to place the city on the "boiled water" list.

Watson And Watson

New Directors Of Chamber Of Commerce

The Belle Glade Chamber of Commerce, by action of its directors, have named William Watson and Tom Watson, as members of the board of directors to replace H. Hanay and T. Daniels, who have long served in those capacities.

As South Bay is a neighboring hamlet within the Belle Glade trade territory, it was decided to invite its Chamber of Commerce, to join in on the city directory project, that body to prepare its own data for that publication.

The board also decided to request Dewitt Upthegrove to prepare it with a complete list of registrants from the Glade area, for reference used in the Chamber office. The Florida Power and Light Company and the Bell Telephone Company, will be requested to provide the Chamber with a list of its new members, especially the newcomers into the area.

BETA SIGMA PHI HAS ELECTION OF OFFICERS

An election of officers was conducted by the Beta Sigma Phi sorority during the meeting Thursday evening. All officers were unanimously re-elected to serve for the coming year with Mrs. Ed M. Lively as president, Mrs. Frank Anderson as vice president, Mrs. O. G. McWhorter, treasurer, Mrs. Charles Lantz, recording secretary, Mrs. Nicky Paff, corresponding secretary.

It was decided to sponsor a nursing course to be given by the American Red Cross in November, and Mrs. A. P. Urcioli was appointed chairman. A representative from the Palm Beach will attend the next meeting and outline plans for the course.

Reports from various committees were given, among them a financial report by Mrs. Eddie Jones on behalf of a successful softball game with the Lions Club. Proceeds are being used to complete repairs, paint the interior, and decorate the Girl Scout Hut. Drapes and furniture are also being added.

A discussion was held on a fall formal dance, and Mrs. McWhorter will report on contacts made for a location at the next meeting.

McWHORTER FAMILY HAVE REUNION HERE SUNDAY

A family reunion was held at the home of Mr. and Mrs. O. G. McWhorter Sunday. Attending were Mr. and Mrs. Lorenzo Connell of Gainesville, Mrs. Henry Titworth of St. Louis, Mo., Mr. and Mrs. Charles McWhorter and children of Lake Port, Mr. and Mrs. J. W. McWhorter and children of Miami, Mrs. Milton Carr and daughters of Lima, Peru, Miss Elbert of Lake Port, Mr. and Mrs. Frank Dooley and children, Mrs. Doris McWhorter, and Mrs. Nell Scullen.

THANKS FOLKS!!!

Thanks to all of those who voted—there were over 400 who didn't come out.

Thanks to those who voted for me!

To those who voted for my opponent—I you exercised your right as a citizen of a democratic system of government—I want you to feel that I am your Commissioner and will as gladly undertake your problems as I will for others.

To All, I promise to continue to give my best to the job.

HAROLD J. RABIN

Morton McDonald
Ret.: City of Welcome
District Governor

The Rotary Club of Belle Glade today will welcome Morton McDonald, Governor of the 167-B District of Rotary International, which includes 25 Rotary Clubs along the East Coast of Florida from Deland and Daytona Beach to Key West.

Mr. McDonald is President of The Abstract Corporation in Deland and is a member of the Rotary Club of Deland.

Mr. McDonald will visit the Rotary Club of Belle Glade to advise and assist President R. E. Freeman, Secretary, N. T. Taylor and other officers of the Club on matters pertaining to club administration and Rotary service activities. He is one of the 180 District Governors of Rotary International who are supervising the activities of some 6,500 Rotary Clubs which have a membership of 320,000.

Wherever Rotary Clubs are located, their activities are similar to those of the Rotary Club of Belle Glade because they are based on the same general objectives of better understanding and fellowship among business and professional men, promoting community betterment, understanding, raising the standards of businesses and professions, and fostering the advancement of good will.

Each year, this world-wide organization continues to grow in numbers and in strength. During the last fiscal year, 323 new Rotary Clubs were organized in 35 countries of the South and Central America, Europe, Asia, Africa, and the Islands of the Pacific.

BELL TELEPHONE
(Continued From Page 1)

The 1949 rate of new construction in Florida is running about five times that of the average of 1936-1939 pre-war average.

"And with Florida continuing to grow and develop so rapidly, it is now apparent that facilities construction requirements will continue heavy for several years according to State Manager A. B. Dooley. "This means that large sums of additional capital are yet to be raised if we are to go forward making the service better and providing all this progressive state needs."

Much Service To Florida
Pointing out that telephone construction is extending to the cities and towns and rural areas throughout the state, Mr. Dooley said that the number of Southern Bell telephones through which Floridians make and receive their calls has increased from 156,000 in mid-1940 to more than 300,000 today. The company is handling about twice as many local calls—more than 2,000,000 daily—and more than 31/2 times as many long distance calls—nearly 30,000 daily—on 12-13.

Ever since the war, Southern Bell has been pushing its service improvement program in Florida, installing unexcelled standards of facilities for both improved and extended service. However, there still remains a tremendous demand for more telephone service in the state, more for present subscribers as well as for other needs.

More and More Service For People of Belle Glade
"In Belle Glade, the number of telephones has increased from 227 in 1940 to 945 on August 1, 1948," District Manager Bowen said. This has required the addition of considerable new equipment. Now under construction here is a one-story brick building to house equipment for direct service will be put into service on December 11, 1948.

The company has recently completed the installation of a

I AM APPRECIATIVE

of the confidence in me expressed in the vote on Tuesday for one of your City Commissioners.

My purpose will be to give to the job whatever abilities I have and to improve Belle Glade in keeping with its present needs, as well as to provide for the growth that certainly is to be ours.

You will always be welcome with criticism and suggestions as to how to obtain what we all want—a BETTER BELLE GLADE.

We, as Commissioners, need the 100% support of ALL VOTERS and you can help your City by getting your neighbor to take more interest in CITY BUSINESS.

Please accept my thanks—I hope you'll be as well pleased two years from now.

FRANK C. DOOLEY

Paid Political Adv.

OBSERVATIONS
(Continued from page 1)
to make the trip. The Fernandino team above Jacksonville will also have a long trip to play here, and our Golden Rams may meet a stiff opponent in this game.

Our sister city of Pahokee is to send a delegation of around

50 or more of its young people to the higher institutions of education this year. Schools to be attended are: U. of Florida at Gainesville and Tallahassee, U. of Georgia, U. of North Carolina, College of Laboratory of Technique, William and Mary, Emory, Southern College at Lakeland, U. Nebraska, Rollins, U. of Duke, Louisiana State U.

and U. of Mississippi, which scatter the students over a wide territory.

The crowded condition of schools which faced Principal Frank Hobson, proved conclusively that more school space is imperatively needed to properly care for our school population. He hopes to see a new high school ready for occupancy by the opening of the school year next fall. Our citizens join in that hope and anticipation.

We believe that the County Board of Public Instruction is cognizant of our pressing need for more school facilities, and will do its utmost to relieve the conditions.

The providing of proper street grade and marker monuments by survey is a commendable step on the part of the City Commissioners, and will prevent squabbles, headaches and location mistakes in the future. This goes well with the new system of lot and house numbering, and when we get our new sanitary sewer system will be a great aid in that work.

The soft ball season is over, and hundreds of fans have enjoyed the community league games at Memorial Field. No better way for both players and patrons to spend an evening for entertainment. It has developed a spirit of clean sportsmanship among the players as well as developing the younger lads in the technique of the game.

The success of the past season certainly assures a bigger and better league next year. Prizes are made for the better lighted field, as the Southern Bell Telephone has donated additional poles for extra light.

Curtis Thompson, who has long been in the vegetable farming and packing house business here, says that beans were the backbone of the vegetable development of the Glades, and does not believe that anywhere in the near future, the lowly snap bean, will be thrown into the discard by farmers. The Glades is an established source for beans in the north during the winter months, and dealers will continue to look to the Glades for its supply of beans.

A substantial income has been secured each year by bean growers and with new processes being introduced into the business, a more substantial market will be established. Better beans, better graded and packed, is going to make a better demand and a better market. He is not yet ready to discard the lowly bean, in favor of some of the new promotional projects, which are finding footing in the Glades. He still is solidly behind the value of the vegetable project of the Glades area.

Looks as if there might be considerable cabbage produced this fall, judging by the fact that one local seed firm reports that it has already sold over 500 pounds of cabbage seed, and other firms in lesser amounts. Seems to be a scarcity of egg plant seed at the present writing.

If you take a travel trip down either Range Line or Military trail road south from the Route 80, you will be surprised at the development of sections with fine rural homes and small farm projects. The territory west of Lake Worth, about Green Acres, is growing into a sizeable community. Many motorists use the inland route to Miami in preference to the heavy traveled east coast route No. 1.

Graber Will Increase Local Farm Activities Here This Season
"Bill" Graber, that north and south specialty vegetable farmer, who migrates between Belle Glade and Hartsville, O., in his farming pursuits arrived back in the Glades, on Saturday after a safe trip from the Buckeye farms.

Graber interests farmed 400 acres in the Hartsville truck lands this summer, aided by some 125 farm laborers from Belle Glade and from crews carried there year round. Bill reports that conditions were not favorable for an overly successful season.

Graber states that he is increasing his Belle Glade operations this season, and will crop around \$60 an acre in root and leaf produce, which promises plenty of work at the farm and packing house.

The Grabers sold their household furnishing in Ohio, which indicates that they will spend less time in Ohio in future years than in the past, so that Bill can have more time to follow his pictorial hobby out on the big lake.

At the session of the County Commissioners, Monday, the question of rent control came up for a hearing, and by a three to two vote, such control is to be

lifted in Palm Beach county. Commissioners Paul Rardin and John Prince were the commissioners who voted in the negative. Rardin did not think it would be a wise move for the Glades area, just as the season activities were opening, and that it would be unfair to the so-called "renters". The machinery of placing the decontrol measure into effect and the date of its effectiveness will be determined at the next board meeting.

A report given out by the State Highway Department that the county had set aside \$50,000 for the so-called South Bay-Clewiston road improvement project, brought out the declaration that no action had been taken by the Board for the provision of any sum for the job.

Commissioner Rardin was authorized to make a trip to Tallahassee to meet with the I. I. Board, in an endeavor to get a site for a proposed county barn to be located at some location in the Glades commissioner district.

Elks Membership Now Over 200
Initiation To Be Held Next Week

Judging by the size of the crowd attending the Elks meeting, Monday, most of the membership away during the summer, have returned home, as seating capacity was a premium.

Harry Dulaney and Archie Harris, by deems from Miami and West Palm Beach lodges, were elected to local membership, bringing the local lodge roster in excess of 200. Initiation was announced for next Monday night, and once a month thereafter.

It was with surprise to officers and members, that I. L. Price, who has been the most efficient chairman of the House Committee, since the lodge was instituted, presented his resignation as chairman and member of that committee. The resignation was accepted with regret, but with full appreciation for

the outstanding work he has done for the lodge and club. Exalted Ruler Betner stated that he had named Walter Hooker as a member of the House Committee.

Exalted Ruler Betner presented an impressive report of the recent meeting of the Officers of the District Lodges at Ft. Lauderdale, with the District Deputy, telling of action taken at that time, stressing several important rulings, which will effect all Elks lodges of the district.

J. W. Mullis Makes Good Record In His Business

J. W. Mullis, who is as well known in Belle Glade as he is in his home town of Pahokee, and who represents the Equitable Life Insurance Co., in this area, has been notified by his district manager, that he was one of the highest 20 agent writers during the past year, and that his name has been engraved on the honor list.

The letter also informed him, that he and his wife, will be guests of the company at its annual agents meeting in Miami, October 22-24, as free participants in the elaborate program and entertainment arranged for that occasion.

Colored Safety Patrol For Elementary School

At the request of the Colored Civic League and the Elementary colored school principal, plans have been taken whereby the city police department will assist in forming a safety patrol squad to serve at that school.

Officer Goodlett will start in training some 8 to 12 boys in traffic regulation and safety measure work, for all four sides of this school, which is surrounded by streets. Some 600 children are attending this school in double shifts, and traffic protection is imperative.

The Police department will also be on duty at congested traffic hours at the High School, and will be supplemented by the Patrol of that school.

HURRICANE NOTICE

We have been advised by our insurance companies that they will not accept windstorm insurance after public notice by the weather bureau that a storm is being formed in the South Atlantic, Gulf of Mexico or Caribbean areas. In the past they would accept storm insurance up until storm warnings were posted for this immediate area.

If you do not have storm insurance and feel that you should have it, we suggest you call us NOW!

HARRIS INSURANCE AGENCY
"Be Sure When You Insure"

Herald Building Belle Glade, Fla.

Despite the fact that Pontiac has built over a half-million cars since the resumption of production after the war, demand still exceeds supply. In the face of this production record, those who place orders now will still experience some delay in delivery. If you

WE WANT YOUR ORDER

And the sooner you place it, the sooner you will get delivery. So if you want a Pontiac, order it now.

WE WILL ESTIMATE DELIVERY DATE

Due to conditions beyond our control, we cannot give you an exact date of delivery. But based on anticipated future shipments from the factory, we will, when you place your order, give you an honest estimate of when you may expect your car. Such estimates will be reviewed any time on request.

Since this is our "home town", our business and its future is based on our good relations with the people of this community. We are most happy that so many people here—as all over the country—have made Pontiac their number one choice as a new car.

are among the many people who feel that Pontiac represents an outstanding value—and wish to order a Pontiac for future delivery—you will be interested in the following policy on retail distribution which we, as Pontiac dealers, will observe:

ORDERS FILLED BY PRIORITY

A definite proportion of the cars we receive from the factory is set aside for preferential delivery to users whose work is in the public welfare and to others with certain occupational requirements. Otherwise, all orders will be filled on the basis of the time when they are received.

YOU PAY FACTORY-SUGGESTED PRICE

Due to changing economic conditions, we cannot, when you place your order, tell you exactly how much the car will cost when delivered in the future. But, at the time of delivery you will be charged only the factory suggested price on your model—which will be shown in a published list of local prices.

YOU SPECIFY ACCESSORIES

While most of our customers order their cars equipped with accessories, we do not force accessories as a condition of sale. You specify what accessories you want when ordering your car, and these are the ones (and the only ones) it will carry when delivered. Some items may be lacking due to current shortages, but none will be added.

REGARDING TRADE-INS

Naturally, if you have a car to trade, we would like to have it in order to take care of our regular used car customers. Our appraisals are fair, based on current conditions. But if you do not have a car to turn in, we still want your order and will accept it for delivery based on the conditions outlined above.

Nothing pleases us more than to turn over the keys of a new Pontiac to one of the many people whose orders we have, because we know they have chosen well—for Pontiac is always a thoroughly good car, and a thoroughly good value, this year, next year, any year.
